

Who is... Rien Hazeleger?

WHAT DO I DO?

I am an entrepreneurial, analytical and also practical deal maker, networker and above all a builder of bridges. My passion is with entrepreneurs(hip), impact and sustainability, especially in developing countries.

WHY HIRE ME?

I combine a wealth of experience working with corporates, SME's, governments, NGO's and other stakeholders with international deal making in a diversity of sectors in both developed and developing countries.

I'm a versatile and energetic professional with strong interpersonal skills and a positive attitude to life. I quickly see connections and spot new trends and opportunities.

Throughout my career, I've been working with and for entrepreneurs and am passionate about companies with a long-term strategic focus combined with a meaningful mission.

HOW DO I DO IT?

I seek complementarity, equality and balance in long term relationships by thoroughly understanding each other's concerns, working closely together to solve those and involving third-party expertise where needed.
